EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

1. (Currently Amended) An automotive seat assembly comprising:

a seat base;

a seatback including an upper seatback surface;

a head restraint assembly mounted to said seatback and defining a head restraint protrusion distance above said upper seatback surface, said head restraint assembly movable between a head restraint operational position and a head restraint stowed position, said head restraint stowed position reducing said head restraint protrusion distance;

an armrest assembly mounted to said seatback, said armrest assembly movable between an armrest stowed position and an armrest deployed position, said armrest assembly in communication with said head restraint assembly such that said head restraint assembly is moved between said head restraint stowed

Art Unit: 3636

position and said head restraint operational position in response to said armrest assembly moving between said armrest deployed position and said armrest stowed position;

wherein said head restraint assembly is movable between said head restraint operational position and said head restraint stowed position independent of a position of said armrest assembly as an override feature.

Remarks

The Examiner's Amendment was performed to correct a typographical error in claim 1. The word - - is - - should have preceded the word "movable". Therefore, - - is - - has been inserted before "movable".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled.
